Summary

Experienced front-end developer with over three years of hands-on experience creating responsive web applications. Proficient in HTML, CSS, and JavaScript, with a deep understanding of modern frameworks such as React, Alpine Js, and Vue.js. Skilled in translating design mockups and wireframes into high-quality code, ensuring cross-browser compatibility and optimal performance. Strong background in implementing user interfaces that are both visually appealing and functional. Proven ability to collaborate with cross-functional teams to deliver projects on time and according to specifications. Seeking to leverage technical expertise and creativity in a dynamic development environment.

Experience

Mid-Front End Developer

Omnicom Media Group Nepal

10/2022 - Present

- Developed and maintained user-facing features for web applications using HTML, CSS, and JavaScript including JavaScript frameworks such as Vue.js and Alpine.js
- Utilized Tailwind CSS for better responsiveness and implemented responsive designs to ensure cross-browser compatibility.
- Collaborated with back-end developers to integrate front-end code with server-side logic
- Participated in code reviews and provided constructive feedback to peers
- Contributed to the improvement of development processes and best practices

Associate Software Engineer

Amnil Technologies • Lalitpur

11/2021 - 09/2022

- Developed and maintained user-facing features for web applications using HTML, CSS, and React.js
- Worked closely with designers to implement user interfaces based on mockups and wireframes
- Optimized web applications for maximum speed and scalability
- Collaborated with web designers, back-end engineer, QA engineers and UI/UX designers
- Brief and modify design to meet changes in client specifications.

Front End Developer Intern

Amnil Technologie • Lalitpur

08/2021 - 11/2021

- Gained practical experience in developing front-end features using React and Node.js
 - Assisted in the implementation of responsive web design principles
 - Collaborated with team members to debug and troubleshoot issues
 - Learned about version control using Git and GitHub
 - Contributed to the development of user interfaces based on design mockups
-
